# **IMOH SUNDAY ETUK**

+2348036329189, +2347084050420 etuk\_imoh@yahoo.com 13, Adegbola St. Ikate Surulere, LA, Nigeria

## **Professional Summary**

- Highly experienced in setting up, maintaining, and evolving the cloud infrastructure and DevOps journey of web
  applications.
- As a skilled engineer with proficiency in Azure cloud technologies and the general IT infrastructure for more than 5 years, I understand the core of IT on-premises resources, DevOps, Cloud and hybrid services and how to apply best reliable practices to meet compliance.

# **Professional Experience**

## Thompson & Grace Pharmaceuticals Limited, Surulere, Lagos (June 2015 to Present)

Azure System Administrator - On Premise

- Configure, monitor and maintain a hybrid infrastructure environment consisting of Microsoft and onpremise endpoints and Microsoft Azure laaS and various SaaS applications.
- Configure and set up migration environment using Azure Migrate.
- Configure and create Windows Virtual Desktop (WVD) by creating host pools and setting up VMs.
- Configure and set up remote desktop services as well as carrying out remote monitoring and management.
- Define controls for configuring and monitoring solutions in Azure AD, Azure cloud, and various SaaS services.
- Assist with reporting on current infrastructure status, and planning for future usage with Cost and Reporting.
- Develop, configure, implement, and manage the systems that comprise the underlying cloud platform.
- Assist with Azure environment implementations via Azure portal, PowerShell, or Azure CLI.
- Coordinate with vendors for technical support and upgrades.
- Perform daily system monitoring, verifying the integrity and availability of all platforms, resources, systems, and key processes, reviewing system and application logs, and verifying completion of scheduled jobs.
- Perform ongoing performance tuning, service upgrades, software patches, and resource optimization as required.
- Be an escalation point for Help Desk tickets and projects.
- Collaborate with other members of the IT Operations team on shared technical knowledge and experience.
- Research and recommend innovative and automated approaches for system administration tasks.
- Create, modify, and disable Azure AD and Office365 accounts as needed.
- Enable automation wherever possible.
- Coordinate and collaborate with team members and service stakeholders.
- Conduct after-hours maintenance as needed.

# Bertola Machine-Tool Limited, Anthony, Lagos (July 2014 to June 2015)

System Administrator

- Established network specifications and analyzed workflow, access, information and security requirements.
- Implemented, developed and tested installation and update of file servers, print servers and application servers in all departments.
- Completed reports detailing network and systems performance, costs and downtime issues.
- Configured, tested and maintained switches and routers' network equipment to achieve great network stability and low-latency
- Worked with users to determine areas of technology in need of improved usability.

- Enhanced availability of infrastructure through enterprise-wide planning, thorough testing, efficient implementation and comprehensive support.
- Maintained flexible schedule and responded to after-hours and weekend emergencies.
- Resolved issues and escalated problems with knowledgeable support and quality service.

# Oxygen Broadband Network Limited, Surulere, Lagos (January 2013 to June 2014) Network Administrator

- Configured networks for smooth, reliable operation to meet business processes and objectives.
- Performed day-to-day LAN and WAN administration, maintenance and support.
- Provided consistent support through on-call rotation duty.
- Provided planning for annual budgets to fund IT projects and controlled spending within budget.
- Technically supported project planning team for development and implementation of proposals and solutions to address hardware and software problems and network emergencies.
- Backed up company data to distributed storage centers to avoid massive data loss in event of network breach or failure.
- Managed and maintained stability of all network and wireless services throughout enterprise.
- Constructed and maintained Virtual Local Area Network (VLAN).
- Drafted training materials and organized training sessions for new employees.
- Maintained network hardware and software and monitored network to support network availability to end users.
- Verified continuity of computer and telephone system services for users through technical expertise, assistance and project coordination.
- Took over responsibilities of administrator during absence and filled in gaps around the office.
- Managed Windows domain move and raised domain level.

## **Projects**

- Developed cloud strategy, architecture, roadmap guidance and leadership for Cloud Migration for Omnicom Group.
- Successfully migrated Omnicom Group Virtual Machines/data from on-premises to Azure using Azure Migrate.
- Successfully created and deployed Windows Virtual Desktop (WVD) on Azure Portal.
- Successfully deployed Remote Desktop Services (RDS) to support work-from-home initiatives at Omnicom Group during COVID-19 lockdown.

#### **Technical Summary**

Azure services: Azure Virtual Machines, VNet, Load balancer, Azure Security center, Network Security Group(NSG), Microsoft Teams, O365, Azure Migration, , Remote Desktop Services, Windows Virtual Desktop, Azure SQL Server, Azure Data Studio, Azure Migration, Azure DevOps, Azure Pipelines, Azure AKS, Remote Desktop Services, Windows Virtual Desktop, Agile project management method, and Scripting languages (PowerShell, Azure CLI, Git Bash, Terraform, CMD)

Operating Systems: VMs, MS Windows, Linux, MacOS

Database Software: MS SQL Server

Containerized/CI-CD/ Version Control Tools: Docker, Kubernetes, Azure Pipeline, Azure Repos and Git

Ticketing Support Platform: Zendesk

Network Protocols: TCP/IP, OSPF, BGP, OSI MODEL, FTP, SSH, EIGRP, V-LAN

#### Certifications

## **AWS**

**Certified Cloud Practitioner** 

#### **Azure**

- 1. Microsoft 365 Certified: Security Administrator Associate
- 2. Dynamics 365 Finance and Operations Apps Solution Architect
- 3. Certified Azure Security Engineer Associate
- 4. Certified Azure AI Fundamentals
- 5. Certified Azure Administrator Associate
- 6. Microsoft Certified Trainer
- 7. Certified Azure AI Engineer Associate
- 8. Certified Azure Fundamentals
- 9. Microsoft Azure Architect Technologies

## **Education**

Yaba College of Technology Higher National Diploma (Distinction) Office Technology and Management

# **Volunteered Programs and Events**

Mentor in Google Cloud, and Azure Cloud Track in Andela's Developers' Scholarship Programs

## **Hobbies**

Research, content writing, traveling, meeting people, public speaking,
